We warehouse within the U.S. for our U.S. customers

## On Guard #8501 Heavy-Duty Concentrated Degreaser & Cleaner

A precise chemical formulation that will lift dirt and grease from the pores of tiles and concrete surfaces. This releasing action helps restore the slip resistant quality of the original surface and will even remove old, hard caked on grease. On Guard is needed anywhere a hazardous condition exists due to a slippery floor. Suitable for restaurants, hotels, motels, hospitals, nursing homes, schools, universities, colleges, etc. Highly concentrated. On Guard is easy to use, biodegradable and non acid. Free rinsing, versatile and economical.

**EFFECTIVE ON HARD GREASE YET SAFE TO USE.**

## The Technology Behind On Guard Electrostatic Degreaser

All matter, whether floors, walls, glass, metal, skin, etc., is made up of ionic particles that consist of either positive or negative electrical charges. When a surface / substrate is brand new, it's ionic charge is in equilibrium, or in a balanced state. Upon the very first cleaning with conventional cleaners, the original ionic balance is disturbed which then causes it to attract additional soils like a magnet.

A surface stays clean up until it's first cleaning with conventional cleaners. That's all it takes to alter its ionic balance, which attracts dust particles at a much faster rate.

Conventional cleaning chemicals perpetuate a vicious cycle. They can cause surfaces to accept certain types of soil more readily. Chemical manufacturers commonly add alkaline ingredients that literally burn soils off, damaging the surfaces they are meant to clean and protect. No Skidding® On Guard removes soils electrostaticly, returning substrates and surfaces as close as possible to their original ionic-balanced, 'like new' condition. Electrostatic cleaning works by restoring the original polarity balance of the surface being cleaned, so that the polarity of the surface is neutralized and the soils literally 'pop' off. The surfaces are restored, resisting resoiling naturally. Surfaces cleaned and protected with No Skidding Products repel soils as if they were new.

Electrostatic cleaning is the basis of all our detergents for cleaning and protecting.

## Packaged

One U.S. gallon (3.78 L)

5 U.S. gallons (18.9 L)

55 U.S. gallons (207L).

## **ON GUARD #8501** **Degreaser & Super Heavy Duty Cleaner**

- Simple to use and safer for people, property and the environment.
- Degreases better, faster, easier and safer.
- Less Mechanical action (scrubbing) required.
- Saves labour costs.
- Removes soil by breaking the electrostatic charge.
- Conditions surfaces to help repel soils and keep surfaces cleaner for longer.
- Overall end-user cost savings due to low dilutions and speed of application.
- When properly diluted, complete removal of petroleum distillates, animal fats and heavy accumulations of soil occurs in one application.
- Contains no harsh caustic, ammonia or solvents.
- Does not rely on excessive alkali.
- Less corrosive.
- Safer in the event of accidental skin contact.
- Contains a micro catalyst that creates a lubricant to protect surfaces from harsh pads.
- Low pH after dilution.
- Does not attack the composition of surface materials, only the soils.
- Does not open pores in the surface.
- No degradation of surface materials.

- Effective in hot, warm, cold, hard and soft water.
- Use for mopping, pressure washing, spray cleaning or auto scrubbing.
- Use on all types of hard surfaces.
- Dilute 1:128 to 1:64 (1 to 2 oz/gal) for light cleaning and 1:32 to 1:14 (4 to 9 oz/gal) heavy duty cleaning.
- Reduces overall costs and redundancy of carrying multiple products.
- Minimal harsh odour to irritate user. Any odour observed quickly dissipates.
- Removes animal fats or petroleum oils and greases, anti-oxidants, asphalt, coaltar, rust and a wide variety of soils

### **PLEASE READ AND FULLY UNDERSTAND LABEL AND MSDS BEFORE USING.**

**Important:** Seller's and manufacturers only obligation shall be to replace such quantity of the product proved to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, user shall determine the suitability of the product for the intended use, and the user assumes all risk and liability whatsoever in connection therewith. No statement of recommendation not contained herein shall have any force or effect unless in an agreement signed by officers of the seller and manufacturer. Buyer assumes all risk and liability associated with disposal.

**No Skidding® products are in use around the world in hotels, warehouses, factories, shopping malls, public transit systems, airports, hospitals and senior care, office complexes, restaurants, day care, schools, fitness clubs, government and military facilities.**

**The most complete range of slip injury prevention products in the World.**
